

# Insect Challenge:

## Build or Draw your own Insect

### All Insects have 3 Main Body Parts

- 1) **The Head:** on the head you will find eyes, mouth and antennae
- 2) **The Thorax:** the thorax is the middle body part, usually has the wings and legs attached to it. Most insects have 6 legs, not all insects have wings
- 3) **The Abdomen:** This is usually the biggest part, inside it has the insect's digestive system.

Create your own Insect using materials you choose: ie paper, markers, Legos, blocks, recycled boxes, pipecleaners, q tips, You get to choose. Make sure your insects has it's 3 main body parts and please don't forget to name your insect too.
